

# Science In the Park

*Come join us for a free exploration of the fun side of science.*

Saturday, April 8  
3.00 pm – 4.30 pm  
Hamilton Park  
(500 Hamilton Ave, Menlo Park)

## TURN MILK INTO PLASTIC

Explore how different plastics stretch, bend, crack, break and feel. You will even turn milk into plastic, mix in some color, mold it and go home with a nice little souvenir. Come enjoy and have fun at this free Belle Haven neighborhood event. We'll have some exciting plastic toys to keep the fun going.

Meet your neighbors while exploring something new. Activity is geared towards ages 5 through 99.

<https://www.facebook.com/ScienceInThePark.BelleHaven/>

This project has been made possible in part by a grant from the Belle Haven Community Development Fund, a partner fund of Silicon Valley Community Foundation.
