Valued Students

First Grade

The most wonderful truth about this special group of students is that they truly care about the welfare of each other. This is true both in and outside the classroom. They are learning to think of others, to be patient, and to appreciate their strengths and to encourage unique struggles as they work and learn together. I am very proud of this class and know that they will continue growing in these exceptional attributes. They are SO ready for 2nd grade!
