## Technology Policy Update

In an effort to better monitor students and access to technology we want to update families regarding a few specific items:

- 1) Students in KP-5 should not bring tablets or laptops to school
  - a) If it is needed for an afterschool program a **parent must notify the main office to avoid confusion.**
- 2) Cell Phone Policy Reminder
  - a) Parents/family should not text or call students during the school day as **students are not permitted to use their phones.** Some families have done so and this has caused interruptions and unnecessary miscommunication.
    - i) Call the main office to contact your child during school hours (650) 327-5052
  - b) We strongly recommend that students in grade KP-3rd not bring cellular phones to school.

We accept no responsibility for lost or damaged phones or non-school issued devices that are brought to campus.
